**Auld & White Celebrates Opening of Newest Project with Donation:
Will Underwrite Adoption Cost for First 150 Dogs & Cats**

Jacksonville, Fla., Aug. 8, 2009 – In celebration of its successful completion of the City of Jacksonville’s new Animal Care & Control facility, Auld & White Constructors will contribute \$10 toward the cost of adoption for the first 150 dogs and cats adopted from the new shelter.

“We’re proud to have built this great new facility,” said AWC president Ed White, “and we support the important work done by Animal Care & Control. Many of our team members are animal lovers, and we all hope this extra incentive will encourage local families to adopt a pet and save a life.”

White made the announcement at today’s grand opening ceremony for the new shelter.

Auld & White completed work on the facility in June, bringing it in on time and on budget in spite of rising material and labor costs. The new shelter is anticipated to become Jacksonville’s first LEED Gold-Certified structure, a milestone in green building for the First Coast.

Auld & White has a long tradition of good corporate citizenship and supports a number of charitable causes and organizations in North Florida. To learn more about how to adopt a pet, visit <http://www.coj.net/Departments/Environmental+and+Compliance/Animal+Care+and+Control>

About Auld & White Constructors

Auld & White Constructors is a Jacksonville-based general contracting business which has been providing quality commercial construction in Northeast Florida for more than 20 years. The firm offers a wide range of services for the construction and renovation of commercial, healthcare, institutional and industrial facilities, and has established a reputation for exceptional cost management skills and customer service.

With 12 LEED Accredited Professionals on staff, Auld & White is a leader in green building on the First Coast. AWC completed two LEED-Certified projects in 2008 and will complete three more by the end of 2009. For more information on Auld & White Constructors or the benefits of green building, visit www.auld-white.com or call Brian Franco or Sheryl Vaughn at 904-296-2555.
